

Type of accommodation

Units Scheldekwartier

This type of accommodation means self supporting, furnished pre-fab units for 1 person. You will have your own kitchen, bathroom with shower, toilet and sink. This is a temporary housing situation available till half of 2017.

These units are situated at the Aagje Dekenstraat in Vlissingen. Right near the center, so on walking distance from the shops and supermarkets. You can be at the HZ University of Applied Sciences within 6 minutes by bicycle.

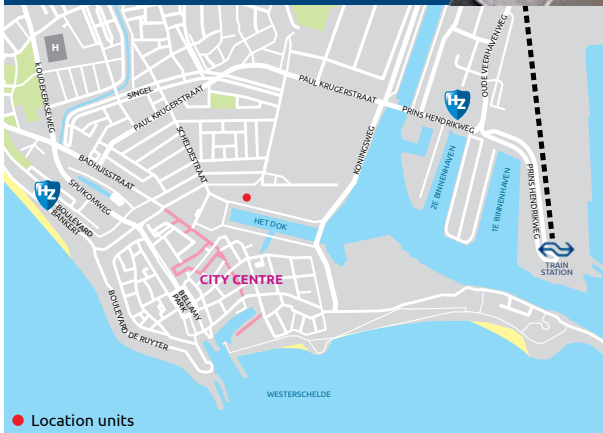

The units measure 18m² of living space and 9m² for the bathroom. There are 92 units in total divided over 4 blocks, each only 2 stories high. You live there independantly, but seeing as these units are rented out exclusively to students, it gives a nice "student-atmosphere".

Occupation of these units is both national and international students.

All units are rented out including an advance for the cost of water, electricity (incl. heating), tv and internet. There are communal washing machines and dryers available for a small fee per use.
